**Almost to Skyline:** This ride is hilly to very hilly, with several good climbs. Basically, the hills just keep on coming. If you like beautiful scenery and some challenging climbs, this ride is a must. Considering the anticipated heat this time of the year, the ride will begin earlier than usual (7:30am), so that we can get back before it gets unbearable. Call the leader if weather conditions are doubtful. Emil Regelman 703/323-1313.
